intimus

The Shredder Company

When the company was founded in 1956, the world was different, as was the nature of information security. Today, the pace of business is accelerating and constantly creating new challenges for how to secure the information we're generating.

Here at intimus, we have long recognized the necessity of keeping pace with information technology, so that we can be a reliable navigator for our clients in this fast-evolving environment. With different classes of information security products we give our clients all the tools necessary to operate more securely and efficiently.

Founded as Schleicher, the intimus brand was born with the introduction of the intimus Simplex, our first office shredder. Since then, intimus has never stopped developing, innovating and

revolutionising the data security market.Today, we employ more than 165 people, with regional offices in 6 countries around the world. Every day, our engineers and technicians work on new solutions and on trimming our products for the future.

Our extensive product portfolio ranges from shredders for paper and media destruction in offices, to large-volume industrial shredders, granulators and disintegrators for central destruction. Our portfolio is completed by degaussers for magnetic data destruction and cardboard recycling machines for the production of packaging materials.

We are proud to present our product catalogue, which gives you a comprehensive overview of the high quality intimus products. Find exactly what you were looking for on 72 pages. Any questions? Get in Contact:

WE ARE HIRING!
JOIN THE TEAM.

Behind every good product is a team of clever minds. That's why we are always looking for employees to join us in finding new ideas for the future of our products. In addition to new employees with professional experience, we also invest in the next generation and offer various training opportunities in our company. In parallel to an application for the positions advertised on our homepage, we would also be pleased to receive your unsolicited application at any time.

Keep your secrets safe!

PARTICLE SIZES ACCORDING TO ISO/IEC 21964

Shredders do not simply destroy, but are an indispensable tool for companies, institutions and private users to protect sensitive data. Seven security levels for different material classifications have been defined in ISO/IEC 21964 (DIN 66399). The higher the security level, the less likely it is that the destroyed media can be reconstructed. Find out which intimus shredder suits your security needs!

	P — Paper, Films, Print forms	O — CDs/DVDs, Blu-ray Discs	T — Floppy disks, Magnetic cassettes, ID cards with magnetic strips	E — USB sticks, Chip cards, SSDs, Phones/Tablets, Memory cards	F — Microfilms	H — HDDs with magnetic data
Class 1 — Normal protection requirement for internal data. **Security level 1** — Security rating: Very low. After destruction, the data can be reproduced without special devices but with special time expenditure.	**P-1** Particle size ≤2000 mm² Strip width ≤12 mm Strip length not limited	**O-1** Particle size ≤2000 mm²	**T-1** Mechanically inoperable	**E-1** Mechanically/ electronically inoperable	**F-1** Particle size ≤160 mm²	**H-1** Mechanically/ electronically inoperable
Security level 2 — Security rating: Low. After destruction, the data can only be reproduced with special devices and special effort.	**P-2** Particle size ≤800 mm² Strip width ≤6 mm Strip length not limited	**O-2** Particle size ≤800 mm²	**T-2** Cut into several pieces and particle size ≤2000 mm²	**E-2** Medium split	**F-2** Particle size ≤30 mm²	**H-2** Medium damaged
Security level 3 — Security rating: Medium. After destruction, the data can only be reproduced with considerable effort (people/ special recovery devices/time).	**P-3** Particle size ≤320 mm² Strip width ≤2 mm Strip length not limited	**O-3** Particle size ≤160 mm²	**T-3** Particle size ≤320 mm²	**E-3** Medium split and particle size ≤160 mm²	**F-3** Particle size ≤10 mm²	**H-3** Medium deformed
Class 2 — High protection requirement for confidential data. **Security level 4** — Security rating: Medium. After destruction, the data can only be reproduced with exceptionally high effort (people/ special recovery devices/time).	**P-4** Particle size ≤160 mm² And for regular particles: Strip width ≤6 mm	**O-4** Particle size ≤30 mm²	**T-4** Particle size ≤160 mm²	**E-4** Data carrier (chip) split and particle size ≤30 mm²	**F-4** Particle size ≤2,5 mm²	**H-4** Medium split and deformed several times and particle size ≤2000 mm²
Security level 5 — Security rating: High. After destruction, the data can only be reproduced with the use of non-standard equipment or special constructions as well as forensic methods.	**P-5** Particle size ≤30 mm² And for regular particles: Strip width ≤2 mm	**O-5** Particle size ≤10 mm²	**T-5** Particle size ≤30 mm²	**E-5** Data carrier (chip) split several times and particle size ≤10 mm²	**F-5** Particle size ≤1 mm²	**H-5** Medium split and deformed several times and particle size ≤320 mm²
Security level 6 — Security rating: Very high. After destruction, the data is impossible to reproduce according to the state of the art in technology.	**P-6** Particle size ≤10 mm² And for regular particles: Strip width ≤1 mm	**O-6** Particle size/ash ≤5 mm² or melt product	**T-6** Particle size ≤10 mm²	**E-6** Data carrier (chip) split several times and particle size/ash ≤1 mm²	**F-6** Particle size/ash ≤0,5 mm²	**H-6** Medium split and deformed several times and particle size ≤10 mm²
Class 3 — Very high protection requirements for particularly confidential and secret data. **Security level 7** — Security rating: Extremely high. After destruction, the data is impossible to reproduce according to the state of the art in science and technology.	**P-7** Particle size/melt/ash ≤5 mm² And for regular particles: Strip width ≤1 mm	**O-7** Particle size/ash ≤0,2 mm² or melt product	**T-7** Particle size/ash ≤2,5 mm² or melt product	**E-7** Data carrier (chip) split several times and particle size/ash ≤0,5 mm²	**F-7** Particle size/ash ≤0,2 mm² or melt product	**H-7** Medium split and deformed several times and particle size ≤5 mm² or heating above curie temperature

[***] Security level according to DIN 66399 (ISO/IEC 21964)

1 Only floppy disks / ID cards.
2 Only ID cards.
3 Only plastic cards with electronic chip.
4 Except from magnetic tape cassette with metal core.
5 No splash protection – CD and plastic card destruction only with safety glasses.

10

1.
Paper Destruction

A synthesis of technology, performance and design.
All intimus document shredders are built from robust,
precision-engineered high-performance components and
have a long service life. The product range covers all
requirements for daily office and home office shredding to
high security destruction of documents according to all current
legal requirements such as ISO/IEC 21964 (DIN 66399)
or NSA 02/01. All of that achieved with a small ecological
footprint and a low noise level. Furthermore, intimus offers a wide
range of high capacity shredders for centralized paper destruction
that provide the speed and throughput necessary to meet the
destruction requirements of businesses, government agencies,
NPOs, and other organizations that need to destroy large
volumes of documents.

intimus 20 CP4

PERFECT FOR SMALL AND HOME OFFICES

20 LITRES **UP TO 3 USERS**

- **Orders only containers ex works with MOQ 800 pieces**
- Noise level: 56 dB(A)*
- Working width: 220 mm
- Easy document shredding thanks to automatic start/stop function.
- The design and finishing meet the highest quality and safety standards.

- Credit cards can also be shredded
- Easy-to-empty 20-litre bin with window
- Width: 34 cm | Depth: 22 cm | Height: 40 cm
- Weight: 6 kg

Orders only
containers ex works.

Various voltage options and
plugs available on request.

Model		Cutting size	Cutting type	Sheet capacity** / 80 g/m^2	Security level***	Also shreds	Nominal motor power
intimus 20 CP4		5x28 mm	Cross cut	up to 10[6] sheets	P-4 | T-4[2] | E-3[3]		345 W

*Noise level in idle operation. **Sheet capacity can vary based on paper weight and electrical power.***according to DIN 66399 (ISO/IEC 21964)
1 Only floppy disks / ID cards. 2 Only ID cards. 3 Only plastic cards with electronic chip. 4 Except from magnetic tape cassette with metal core.
5 No splash protection - CD and plastic card destruction only with saftey glasses. 6 Under test conditions.
All data without liability. Subject to technical and optical changes.

intimus 1500

PERFECT FOR SMALL OFFICES OR HOME OFFICES

22 LITRES **UP TO 3 USERS**

- Noise level: 65 dB(A)*
- Working width: 220 mm
- Shredder with castors for office use
- Easy document shredding thanks to automatic start/stop function, overheating protection and bin full sensor.
- The design and finishing meet the highest quality and safety standards.
- Can manage staples and clips – credit cards and CDs can also be shredded via a separate feed slot

- Shredding speed (mm/sec): 30 (SP2), 20 (CP4), 25 (CP5)
- Max operating time (min):
   8 on / 30 off (SP2), 5 on / 45 off (CP4/CP5)
- The large, easy-to-empty 22-litre bin with window holds up to 200 (SP2), 450 (CP4), 500 (CP5) sheets of paper.
- Width: 35 cm | Depth: 25 cm | Height: 57 cm
- Weight: 7 kg (SP2), 8,5 kg (CP4/CP5)

Orders only
containers ex works.

Various voltage options and
plugs available on request.

intimus 130

SHREDDER FOR OFFICE USE

130 LITRES **UP TO 25 USERS**

- Low noise level: 59 (CP4/CP6/CP7), 60 (CP5) dB(A)*
- Working width: 310 (CP4/CP6/CP7), 405 (CP5) mm
- Automatic start / stop via photoelectric sensor
- Automatic reverse function for easy resolution of jams caused by paper overload
- Can manage staples, clips, credit cards and CDs
- i-control control panel with clear and intuitive visual indicators: Ready, material jam, door open, electrical fault, motor overload, bin full, oil needed
- Easy visualisation of the paper load level by Dynamic Load Sensor
- Continuous running
- EcoLogic energy saving system with automatic shutdown after 15 minutes of inactivity.

- CP5: Removable paper container
- CP4/CP6/CP7: Metal frame with reusable bag
- Exclusive design with wooden cabinet and castors
- Shredding speed (mm/sec): 105 (CP4), 140 (CP5), 130 (CP6), 180 (CP7)
- Also available with automatic oiler (AO)
- CP5: Width: 66 cm | Depth: 43 cm | Height: 102 cm
- CP4/CP6/CP7: Width: 54 cm | Depth: 40 cm | Height: 110 cm
- Weight: 46 kg (CP4/CP6/CP7), 60 kg (CP5)
- Scope of delivery: 1 x carboard box, 5 x PE-bag, 1 x 100 ml oil (CP5), 5 x PE-bag, 1 x 100 ml oil (CP4/CP6/CP7), 2 l oil (AO)

Various voltage options and plugs available on request.

MADE IN GERMANY

intimus OmniShred 85 / intmus OmniShred 115

POWERFUL, MULTIFUNCTIONAL SHREDDER FOR OFFICE USE

68 / 115 LITRES **UP TO 10-25 USERS**

- Low noise level: 63 dB(A)*
- Working width: 305 / 250x130 mm
- Smart feeding options for maximum user flexibility
- Can manage a variety of material: paper sheets or crumpled paper, cardboard, foil-laminated documents, ID cards, fob keys, credit cards, passports, CDs, DVDs, floppy disks and USB sticks.
- The top feeder is secured against splinters with a transparent sliding door allowing to follow the destruction process.
- Equipped with an automatic oiler and i-control panel with clear and intuitive visual indications

- Continuous running
- Automatic start / stop via photoelectric sensor
- A permanent automatic forward and reverse function prevents jams in case of overload without overheating
- With wooden cabinet and mounted on castors
- Shredding speed (paper): 160 mm/sec
- EcoLogic energy saving system with automatic shutdown after 5 minutes of inactivity.
- Width: 66 cm | Depth: 55 cm | Height: 81 (85) / 108,5 (115) cm
- Weight: 90 kg (85) / 100 kg (115)

Various voltage options and plugs available on request.

1.2

Autofeed Shredders

intimus AutoShred 140

FULLY AUTOMATIC DOCUMENT SHREDDER

20 LITRES   **UP TO 3 USERS**

- At 54 dB(A)*, it is particularly quiet in operation and ensures a convenient working environment.
- The construction and finishing meet the highest quality and safety standards.
- Mounted on castors for easy mobility and flexible use.
- Simple operation with clear LED status indicators and bin full sensor.
- 140 sheets of 80 g/m² paper with paperclips and staples can be fed via auto-feed.
- Credit cards and up to 10 sheets of 80 g/m² paper can be shredded via the manual feed.

- The large and easily removeable 20-litre waste bin can hold up to 380 sheets of paper.
- The 4x12 mm particles comply with security level P-4 according to DIN 66399 (ISO/IEC 21964).
- An overheating protection and clever anti-paper jam protection technology ensure a particularly long operating time of 60 minutes without interruption.
- Even when you have already finished work, the AutoShred continues to work reliably for you.
- Once the work is done, it switches off automatically after 5 minutes.
- Width: 37 cm | Depth: 28 cm | Height: 50 cm
- Weight: 11 kg

Various voltage options and plugs available on request.

intimus 14.95

INDUSTRIAL SHREDDER WITH HEAVY-DUTY CONVEYOR BELT

UP TO

P-3: 325 KG/H | P-4: 230 KG/H**   400 LITRES**

- Low noise level: 61 dB(A)*
- Working width: 440 mm
- Effortless document shredding with internal conveyor belt, dosage paddles, auto reverse, overload protection, bin full sensor
- Can manage staples, clips, credit cards, CDs, crumpled paper and floppy disks
- Easy operation with indicator lights for bin full, door open, material jam
- Metal frame with reusable collecting bag as standard waste disposal

- Optional: Large removable container located below the cutting mechanism
- On castors for flexible use
- Shredding speed: 300 mm/sec
- Optional available with automatic oiler, emergency stop bar, extraction system and table extension
- Fits through any standard door
- Width: 80 cm (table extension optional to 105 cm) | Depth: 167 cm | Height: 169 cm
- Weight: 443 kg

Various voltage options and plugs available on request.

MADE IN GERMANY

intimus 16.99 SmartShred

HEAVY DUTY SHREDDER WITH AUTOMATIC CONVEYOR BELT FEEDING

UP TO

P-2: 550 KG/H | P-3: 480 KG/H**

- Noise level: 61 dB(A)*
- Working width: 500 mm
- Intuitive touchscreen
- The SmartShred programmable logic controller (PLC) enables language selection, recording of operating hours, display of all machine processes, precise error display or maintenance reminders
- Depending on the variant, the hardened cutter cylinders made of high-quality steel destroy even complete file folders and ensure a long service life
- Shredding material: Paper or crumpled paper with staples and paper clips, smart cards, floppy disks, CDs and DVDs (Variant P-2: as well as small quantities of entire folders and books)

- High performance through efficient and continuous feeding of documents by means of an automatic feeding conveyor belt
- The model range offers various discharge options: Collection bin for collecting the loose cutting material, baler for compaction of particles, horizontal discharge belt for connection to a conveyor belt or collection bin and other customised solutions
- In case of overload, the cutting unit and conveyor belt reverse automatically and switch back to forward running after some time.
- Stops automatically when the collection container is full
- Equipped with an intelligent automatic oiler as standard
- Robust metal housing
- Equipped with an emergency stop bar
- Suction system available as an option

Various voltage options and plugs available on request.

1.4

Disintegrators

🇩🇪 **MADE IN GERMANY**

intimus Disintegrators

FOR THE HIGHEST SAFETY REQUIREMENTS

UP TO

13 – 2 000 KG/H**

- Noise level: 100 – 110 dB(A)*
- Working width: 230 – 1 000 mm
- The particle sizes and the achievable security levels of a disintegrator depend on the perforation of the screen used. With our intimus disintegrators, you can change screens in minutes and customize the machine to meet your specific security requirements
- Screens are available for security levels 3 to 7 according to DIN 66399. Even the strictest NSA standards of the US government are met.
- For maximum throughput and best durability, the screens are made of thick, drilled (not punched) steel plate with optimized hole spacing and geometries
- Shredder material: paper documents (with staples and paper clips), banknotes, passports, ID cards, smart cards, floppy disks, CDs and DVDs
- Thanks to generous working widths, all common paper and EDP formats can be easily fed, depending on the model

- A clearly arranged panel facilitates operation
- The rotors are manufactured out of of one solid steel block. The outstanding balance allows for vibration-free running, high throughput and low energy-consumption
- The durable knives are made of high-quality hardened tool steel. Worn or damaged knives can be easily replaced or resharpened by any dealer
- The upper part of the housing can be folded back. The wide-opening chassis allows best accessibility to the screen as well as to all rotor and stator knives for convenient and fast replacement
- For all disintegrators, optional customized soundproof booths or exhaust systems are available
- For larger models from DIS 300/450, optional feed belts and complex systems are also available

2.

Media Destruction

With the increasing demand of digital data carrier, many businesses and organizations now have huge inventories of obsolete hard drives, flash memory and other media that need to be securely destroyed due to the sensitive data they contain. For this reason, intimus has developed a comprehensive range of physical media destroyers that can shred, crush and even granulate physical media so that its data can no longer be recovered. We offer a wide range of digital media destruction products for the secure disposal of hard drives, optical discs, flash memory, credit cards and other media for both office and industrial use.

2.1

Office Shredders

🇩🇪 **MADE IN GERMANY**

intimus 175 hybrid

HIGH-SECURITY DOCUMENT SHREDDER

96 (PAPER) / 45 (CDS) LITRES

UP TO 25 USERS

- Low noise level: 52 dB(A)*
- Working width (mm): 265 (paper) + 125 (CD)
- Powerful geared motor
- Automatic start / stop via photoelectric sensor
- Automatic reverse function for easy resolution of jams caused by paper overload
- Can manage staples, credit cards and CDs
- i-control control panel with clear and intuitive visual indicators: Ready, material jam, door open, electrical fault, motor overload, bin full, oil needed

- Easy visualisation of the paper load level by Dynamic Load Sensor
- Continuous running
- EcoLogic energy saving system with automatic shutdown after 15 minutes of inactivity.
- Waste separation: Two removable paper containers
- Exclusive design with wooden cabinet and castors
- Shredding speed: 155 mm/sec
- Automatic oiling system
- Width: 66 cm | Depth: 56 cm | Height: 105 cm
- Weight: 92 kg

Various voltage options and plugs available on request.

🇩🇪 **MADE IN GERMANY**

intimus OmniShred 85 / intmus OmniShred 115

POWERFUL, MULTIFUNCTIONAL SHREDDER FOR OFFICE USE

68 / 115 LITRES   **UP TO 10-25 USERS**

- Low noise level: 63 dB(A)*
- Working width: 305 / 250x130 mm
- Smart feeding options for maximum user flexibility
- Can manage a variety of material: paper sheets or crumpled paper, cardboard, foil-laminated documents, ID cards, fob keys, credit cards, passports, CDs, DVDs, floppy disks and USB sticks.
- The top feeder is secured against splinters with a transparent sliding door allowing to follow the destruction process.
- Equipped with an automatic oiler and i-control panel with clear and intuitive visual indications

- Continuous running
- Automatic start / stop via photoelectric sensor
- A permanent automatic forward and reverse function prevents jams in case of overload without overheating
- With wooden cabinet and mounted on castors
- Shredding speed (paper): 160 mm/sec
- EcoLogic energy saving system with automatic shutdown after 5 minutes of inactivity.
- Width: 66 cm | Depth: 55 cm | Height: 81 (85) /108,5 (115) cm

2.3

Industrial Shredders

intimus HDD Gladiator

HIGH-PERFORMANCE SHREDDER FOR OPTICAL AND MAGNETIC MEDIA

UP TO

400 2,5" HDDs/H**   **120 LITRES**

- Low noise level: 66 dB(A)*
- Working width chamber 1: 145 mm
- Working width chamber 2: 135 mm
- Handles up to 150 3,5" enterprise HDD´s, even with server frame
- Fast, reliable and easy to use
- Clear ON/OFF and reverse buttons
- Specially hardened blades
- Lockable master switch
- Automatic reverse in case of overload

- Shredded material collected in standard 120-litre waste bin
- To ensure maximum performance, the hard drives are fed into the feed flap on the left which uses 30-mm blades specially designed for hard drives
- The feed flap on the right is used for optical media, SSD, tape drives, etc. It uses 12-mm blades specially designed for lightweight supports
- Display with integrated hour meter
- Width: 104 cm | Depth: 84 cm | Height: 168 cm
- Weight: 540 kg

Various voltage options and plugs available on request.

*Noise level in idle operation. **Depending on the type of material mix ***according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

50

intimus VZ Multimedia 180

HDD SHREDDER

UP TO

510 2,5" HDDs/H**

120 LITRES

- Low noise level: 70 dB(A)*
- Working width: 160 mm
- The fully automatic Eaton PLC guarantees easy operation and monitoring. The system can be conveniently controlled via a single start and stop button
- The electronic overload detection with intelligent auto-reverse protects the cutting unit from breakage and damage
- A feed flap enables the continuous feeding of media with maximum dimensions of 160 x 200 x 40 mm into a stable feed chute made of sheet steel

- For the most flexible use possible, the intimus VZ MultiMedia 180 is mobile on 2 fixed castors and 2 lockable swivel castors and fits through all standard doors due to its narrow width of 800 mm
- The robust construction with welded profile steel guarantees a long service life
- Shredded material collected in standard 120-litre waste bin
- Handles up to 300 3,5" enterprise HDD´s, even with server frame
- Width: 108 cm | Depth: 78 cm | Height: 185 cm
- Weight: Approx. 900 kg
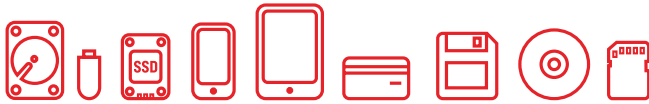

Various voltage options and plugs available on request.

Model	Cutting size	Cutting type	Security level***	Also shreds	Nominal motor power
intimus VZ Multimedia 180	19 mm	Strip cut	O-1|T-1|E-2|H-4		4000 W

*Noise level in idle operation. **Depending on the type of material mix ***according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

MADE IN GERMANY

intimus HDD Granulator

HIGH-PERFORMANCE GRANULATOR FOR OPTICAL AND MAGNETIC MEDIA

UP TO
70 HDDs (H-5)* **240 LITRES**

- Low noise level: 70 dB(A)*
- Working width: 330 mm
- Exchangeable screens enable different security levels depending on requirements
- Available screens allow to cover security levels up to H-6
- Shreds HDDs up to 5.25"
- Large feed hopper
- Solid sheet steel housing with removable waste bin
- A hydraulic lift helps to install and deinstall the screens easily

- Automatic reverse
- Automatic switch off after 5 min of inactivity
- Shredded material collected in standard waste bin
- Shredding material: Optical media such as CDs, DVDs and Blu-Rays. Magnetic media such as HDDs, floppy disks, smaller magnetic tapes and credit cards.
- Width: 138 cm | Depth: 77 cm | Height: 213 cm
- Weight: 1060 kg

Various voltage options and plugs available on request.

Model	Security level***	Also shreds	Motor power consumption
intimus HDD Granulator	O-2 – O-4	T-2, T-4, T-5	H-3, H-5, H-6		4000 W

*Noise level in idle operation. **Depending on the type of material mix ***according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

intimus SSD Granulator

HIGH-PERFORMANCE GRANULATOR FOR SSDS

UP TO
180 SSDs (E-4)* **88 LITRES**

- Low noise level: 70 dB(A)*
- Working width: 140 mm
- Designed for the highest security requirements
- Exchangeable screens enable different security levels depending on requirements
- Available screens allow to cover security levels up to E-5
- Slim product design on castors requires little space and fits through all standard doors
- Automatic reverse
- Automatic switch off after 5 min of inactivity
- A hydraulic lift helps to install and deinstall the screens easily

- Bin full sensor
- Shredding material: Electronic media such as SSDs, USBs, memory cards, smartphones and tablets without batteries. Optical media such as CDs, DVDs and Blu-Rays in low volumes. Magnetic media such as floppy disks, smaller magnetic tapes and credit cards in low volumes.
- An Eaton PLC controls the machine and enables modification of the operating parameters
- Width: 116 cm | Depth: 72 cm | Height: 125 cm
- Weight: 430 kg

Various voltage options and plugs available on request.

Model	Security level***	Also shreds	Motor power consumption
intimus SSD Granulator	T-4 – T-6	E-3 – E-5		2200 W

*Noise level in idle operation. **Depending on the type of material mix ***according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

🇩🇪 **MADE IN GERMANY**

intimus SSD-HDD Granulator

TWO-IN-ONE SOLUTION

UP TO 70 HDDs (H-5) / 180 SSDs (E-4)**   **130 LITRES**

- Low noise level: 70 dB(A)*
- Working width HDD: 270 mm
- Working width SSD: 100 mm
- Up to 65% space saving in comparison to a combination of individual SSD and HDD Granulators
- Exchangeable screens enable different security levels depending on requirements
- Available screens allow to cover security levels up to E-5 and H-6
- A hydraulic lift helps to install and deinstall the screens easily

- Shredding material: Electronic media such as SSDs, USBs, memory cards, smartphones and tablets without batteries. Optical media such as CDs, DVDs and Blu-Rays. Magnetic media such as HDDs, floppy disks, smaller magnetic tapes and credit cards.
- An Eaton PLC controls the machine and enables modification of the operating parameters
- Automatic reverse
- Automatic switch off after 5 min of inactivity
- Width: 184 cm | Depth: 90 cm | Height: 153 cm
- Weight: Approx. 1170 kg

⚡ Various voltage options and plugs available on request.

Model	Security level***		Also shreds	Motor power consumption
intimus SSD-HDD Granulator	O-2, O-3, O-4 | T-4, T-5, T-6 | E-3, E-4, E-5 | H-3, H-5, H-6			5500 W

*Noise level in idle operation. **Depending on the type of material mix ***according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

Cardboard Recycling

Every company that sends or receives packages is inundated with corrugated boxes. This packaging material is practical and robust - but what happens when it reaches the end of its useful life?

Our solution: Pac(k)-Revolution - give your old cardboards a second life! The intimus PacMaster provides a unique way to recycle corrugated cardboard: it turns used cardboard boxes into valuable cushioning material and packaging filler. The resulting filler materials provide reliable protection during shipping - even for sensitive and heavy goods.

Save money and time with recycled packaging material and do something good for the environment at the same time.

55

3.1

Cardboard Recyclers

intimus PacMaster S / VS

GIVE YOUR OLD CARDBOARDS A SECOND LIFE

UP TO

S: 5-7 / VS: 7-11 M³/H**

- Low noise level: 62 dB(A)*
- Cutter feed width/height: 425 mm / 15 mm
- Shreds old and obsolete cardboard into strong packaging material
- Easy amortisation for organisations that frequently receive and send parcels
- Simple, reliable and robust metal construction for intensive use in the packaging warehouse.
- ON/OFF safety switch / emergency stop button

- Size guide on the work surface to ensure accurate cutting of the cardboard and to adjust the size of the padding mats to the required size
- Available as Vario-Speed (VS) version: drive concept optimizes the working speed depending on the shred load
- Optinal also available with dust extractor
- Width: 69 cm | Depth: 47 cm | Height: 95 cm
- Weight: 176 kg for Model S | 185 kg for Model VS

Various voltage options and plugs available on request.

Model	Fill material	Throughput	Cardboard capacity	Cutting Speed	Nominal motor power
PacMaster S	4x110 mm	up to 7[6] m³/h	up to 3 layers	240 mm/s	2200 W
PacMaster VS	4x110 mm	up to 11[6] m³/h	up to 3 layers	90-290 mm/s	2200 W

*Noise level in idle operation. **Performance may vary depending on feeding type and paper quality. 6 Under test conditions.
All data without liability. Subject to technical and optical changes.

4.

Degaussing & Crushing

Data destruction solutions that rely on the physical destruction of hard drives and data tapes provide a level of security that is more than adequate for most applications. However, some agencies and organizations require that the actual information stored magnetically on the hard disk platters or data tape be erased or otherwise destroyed at the microscopic level, prior to disposing or physically destroying the drive.

In order to completely erase data that is stored on magnetic media, it is necessary to expose the media to powerful magnetic fields, while also ensuring the safety of nearby persons.
This is why intimus has developed a full line of easy-to-use

degausser systems which can completely erase a hard-drive in seconds, making it impossible to retrieve the stored data.

For organizations desiring or requiring careful documentation of HDD erasure and disposal, the Auditor-Pro systems offer an all-in-one HDD erasure and verification solution.

The degaussers can also be combined with the intimus 360 Crusher and intimus 360 Destroyer to add physical destruction by additionally bending and breaking SSDs and hard drives, including data disks and other internal components, to fulfill the highest safety requirements.

4.1

Degaussers

intimus 8000 S

SPACE-SAVING AND COST-EFFECTIVE DEGAUSSER

UP TO

1920 HDDS/H*   **10000 GAUSS**   **8 S**

- Clean and quiet solution for sanitising magnetic media
- Erases up to 240 standard hard disks (3,5 inch) per hour
- Media Slot Dimension:
  Width: 108 mm | Depth: 149 mm | Height: 32 mm
- Single pass pulse technology
- Quick solution with drawer for destroying hard drives individually or in batches

- Internal verification of magnetic field to guarantee safe and complete data deletion
- Protected against external magnetic influences
- Optional Auditor-Pro to generate a certificate of erasure and destruction
- Width: 45 cm | Depth: 34 cm | Height: 15 cm
- Weight: 15 kg

Various voltage options and plugs available on request.

Model	Throughput*	Duty cycle	Magnetic field
intimus 8000S	up to 1920 HDDs/h (1,8 inch)	8 sec	10 000 Gauss, 1 Tesla

60

* Theoretical throughput.
All data without liability. Subject to technical and optical changes.

intimus 9000 S

HIGH-PERFORMANCE DEGAUSSER

UP TO **4500 HDDS/H*** **10000 GAUSS** **3 S**

- Clean and quiet solution for sanitising magnetic media
- Complete data erasure in only 3 seconds
- Erases up to 450 standard hard disks (3,5 inch) per hour
- Media Slot Dimension:
  Width: 114 mm | Depth: 149 mm | Height: 43 mm
- Single pass pulse technology
- Fast sliding feed solution for destroying hard drives individually or in batches

- Internal verification of magnetic field to guarantee safe and complete data deletion
- Protected against external magnetic influences
- Optional Auditor-Pro to generate a certificate of erasure and destruction
- Width: 58 cm | Depth: 33 cm | Height: 48 cm
- Weight: 27 kg

Various voltage options and plugs available on request.

Model	Throughput*	Duty cycle	Magnetic field
intimus 9000S	up to 4500 HDDs/h (1,8 inch)	3 sec	10 000 Gauss, 1 Tesla

* Theoretical throughput.
All data without liability. Subject to technical and optical changes.

intimus 20000 S Auditor-Pro

NSA/CSS EPL-LISTED DEGAUSSER

UP TO

1300 HDDS/H*   **20000 GAUSS**   **15 S**

- Meets the most stringent government and industry standards for erasing hard drive and tape media
- Clean and quiet solution for sanitising magnetic media
- Erases up to 150 standard hard disks (3,5 inch) per hour
- Media Slot Dimension:
  Width: 108 mm | Depth: 149 mm | Height: 32 mm
- Single pass pulse technology
- Drawer feeding solution

- Information display
- Internal verification of magnetic field to guarantee safe and complete data deletion
- Generates Auditor-Pro erasure report with images for audit compliance
- Width: 25 cm | Depth: 63 cm | Height: 43 cm
- Weight: 48 kg

Various voltage options and
plugs available on request.

Model	Throughput*	Duty cycle	Magnetic field
intimus 20000S Auditor-Pro	up to 1300 HDDs/h (1,8 inch)	15 sec	20 000 Gauss, 2 Tesla

* Theoretical throughput.
All data without liability. Subject to technical and optical changes.

intimus 40000 S

THE MOST POWERFUL HARD DRIVE DEGAUSSER AVAILABLE

UP TO

480 HDDS/H*   **40000 GAUSS**   **28 S**

- Meets the most stringent government and industry standards for erasing hard drive and tape media
- Suitable for non-functioning or obsolete hard disks and magnetic tapes
- Complete data erasure in under 28 seconds
- Erases up to 60 standard hard disks (3,5 inch) per hour
- Media Slot Dimension:
  Width: 108 mm | Depth: 149 mm | Height: 32 mm

- Enables continuous operation
- Shielded – no magnetic radiation to the environment
- intimus scanner and software package included
- Optional Auditor-Pro to generate a certificate of erasure and destruction
- Width: 25 cm | Depth: 63 cm | Height: 43 cm
- Weight: 59 kg

Various voltage options and plugs available on request.

Model	Throughput*	Duty cycle	Magnetic field
intimus 40000S	up to 480 HDDs/h (1,8 inch)	28 sec	40 000 Gauss, 4 Tesla

* Theoretical throughput.
All data without liability. Subject to technical and optical changes.

4.2

Crushers

64

intimus 360 Crusher

HDD DESTROYER

UP TO
1800 2.5" HDDS/H360 3.5" HDDS/H*

- Bends hard drives up to 5,7 cm in height
- Destruction chamber capacity:
  Width: 123,7 mm | Depth: 172,2 mm | Height: 57,4 mm
- Meets evolving technology challenges by increasing
  the speed and amplifying the crushing power
- Security level H-3 for standalone application
- Robust crush chamber
- Bends, breaks, and mangles hard drives, including dataplatters
  and other internal components, preventing data recovery
- Destroys solid-state media, flash drives, USB thumb drives,
  and SSHD controller boards when used with optional
  intimus SSD Destroyer

- Lightest electric destroyer on the market
- Crushes multiple drives at a time
- Quiet, office-friendly design
- No hydraulics
- Best to combine with degaussing for a full solution for
  high security requirements
- Width: 19 cm | Depth: 47 cm | Height: 38 cm
- Weight: Crusher: 36 kg / SSD Destroyer: 3,8 kg

Various voltage options and
plugs available on request.

Model	Security level**	Crushes	Nominal motor power
intimus 360 Crusher	H-3		During standby: 90 W During crush: 1200 W (max)

* Theoretical throughput. ** according to DIN 66399 (ISO/IEC 21964)
All data without liability. Subject to technical and optical changes.

5.

Consumables

All intimus consumables are in line with the high quality standards and have been exclusively designed for intimus shredders. In our most extensive range of waste bags for shredded paper, there is the right bag for every model. In addition, using the right oil and regular oiling of the machines, ensures the longevity of the cutting cylinders and provides a consistently high cutting performance to keep your shredder running perfectly.

Shredder bags

CONVENIENT BAGS KEEP WORK AREAS CLEAN

We have different bag sizes for shredders. Choose a bag suitable for the volume of your waste bin. Maximum tear strength.

Strapping for balers

EASY TO USE

High-quality strapping specially developed for use in balers.

Oil 100 ml

GENERAL OILING

Can be used for any shredder. Very easy to use. The oil is sprinkled onto 2-3 paper sheets which are then destroyed. It is not recommended to sprinkle the oil directly onto the blades.

Oil 1 Litre

AUTOMATIC OILING SMALL MACHINES

The 1-litre oil bottles are designed for small shredders like intimus 45/60/85 with automatic oiling. It is important to always keep a spare bottle on hand to ensure proper lubrication of the machine.

Oil 2 Litres

AUTOMATIC OILING LARGE MACHINES

The 2-litre oil bottles are designed for large shredders with automatic oiling. It is important to always keep a spare bottle on hand to ensure proper lubrication of the machine.

Oil 5 Litres

HIGH PERFORMANCE OILING

The 5-litre oil bottles are designed for high-performance equipment. Correct lubrication of the cutting heads guarantees a longer cutting head life.

All data without liability. Subject to technical and optical changes.
